

Cooley's Anemia Foundation

Support for Significant Travel to Treatment Centers

The Cooley's Anemia Foundation (CAF) is offering limited financial assistance to individuals with thalassemia who experience financial hardship due to travel expenses incurred in obtaining an annual comprehensive care evaluation or extraordinary thalassemia care at a major treatment center. (Extraordinary thalassemia care shall be defined as care recommended by a qualified thalassemia physician which falls outside regular transfusions or comprehensive care – for example, if a patient requires multiple MRI iron assessments which cannot be performed at their home treatment facility.)

CAF will reimburse up to \$500 in travel expenses to qualified applicants. Reimbursements will be distributed on a first come, first serve basis until funding for the period has been exhausted. No one thalassemia patient may receive more than \$500 travel reimbursement on an annual basis under the terms of this program. Families with more than one child with thalassemia may be reimbursed for up to \$500 for each child. Travel must have occurred on or after July 1, 2024.

Patients are encouraged to take advantage of any existing services already in place for defraying costs (such as low-cost housing or reduced-cost or free travel services provided in conjunction with a specific center) before applying for these funds. Because funds are limited, patients are encouraged to check with CAF in advance if they are planning on utilizing this program for reimbursement. CAF will make every effort to assist qualified applicants but cannot provide funding once it is exhausted for the year. Total funding for the initial year is \$30,000.

Requirements:
